

SKILLS

- ReactJS
- JavaScript
- HTML
- CSS
- TailwindCSS
- Figma
- Miro
- Canva

EXPERIENCE

Feb 2022 - Jan 2023

FrontEnd Developer, Neuwave Labs - Kochi, Kerala

- I worked with **5** Clients during my time at neuwave labs, given below is what I did.
- **Find Clients:** Find potential clients, mainly startups wanting to build websites for their companies.
- **Talking to Clients:** Understanding client requirements, and talking to founders about their idea and vision to give them the best possible results.
- **Designing the Website:** Using tools like Figma and Miro to design the website outline and figure out the user flow.
- **Building the Website:** Once all the above three steps are complete, the website is built adhering to the Figma design. (Most of the websites were built with ReactJS).
